DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: 1 and 3-17 are allowed because the prior art fail to teach or to suggest a light wavelength-converting module as recited in claim 1 and Amendment received on 9/15/04 from the applicant.

Chikuma et al. ('369) discloses a structure of an optical pickup including the claimed features except for an IR cutting filter. The argument on page 7 of the Remark of the Amendment from the applicant is found convincing that the use of an IR cut off filter would fundamentally contradict a principle of operation of Chikuma reference because the primary wavelength from the light source would be eliminated with the insertion of the IR cutting off filter.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2828

Citation of Pertinent References

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The patent to Chikuma et al. discloses Optical Pickup, Optical Information Recording Carrier and Recording and Reproducing Apparatus thereof, U.S. Patent No. 5172369
